CŌBU

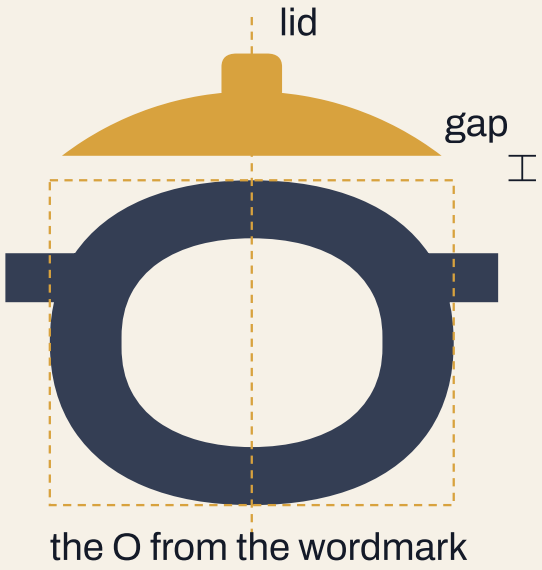

Brand Book

HOME & KITCHEN VERSION 1.0 OCTOBER 2026

01 · THE IDEA

The O lifts its lid

COBU is set in a wide, sturdy typeface. Its O is broad enough to be a Dutch oven, so we gave it a lid. Read the name and you already know what we make.

The pot is the letter

The body is the exact O from the wordmark, so the icon and the name always match.

A domed lid

Its thickness matches the letters' strokes, and it floats a short gap above the pot as if steam had just lifted it.

Handles on the icon

Used on its own, the pot gets two side handles so it reads as cookware at any size.

02 · LOGO SET

A wordmark and an icon

Use the wordmark wherever there is room. Use the icon when space is square or small, or when the name is already nearby.

Wordmark (primary)

Packaging, website, Amazon brand store, documents.

Icon

Social avatars, favicons, product stamping, stickers, tags.

03 · COLOUR VERSIONS

Navy on warm white comes first

Choose the version by the background. On photographs, use whichever of navy or warm white gives more contrast.

Navy on warm white

The primary version.

Warm white on navy

Boxes, social media, merchandise.

Navy on mustard

Icon only: stickers, promotions.

Single colour

Embossing, laser etching, one-colour print.

04 · SPACE AND SIZE

Give it room

Keep a margin of at least *x*, the height of the lid and knob, on every side. Below the minimum sizes the gap under the lid starts to close.

CŌBU

WORDMARK · MIN 30 MM / 140 PX

ICON · MIN 8 MM / 32 PX

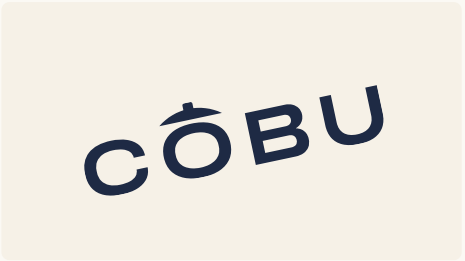

05 · MISUSE

Keep it as drawn

The logo only works exactly as supplied. Always use the master files; never retype COBU in a font or redraw the pot.

× Don't stretch or squash it

× Don't rotate it

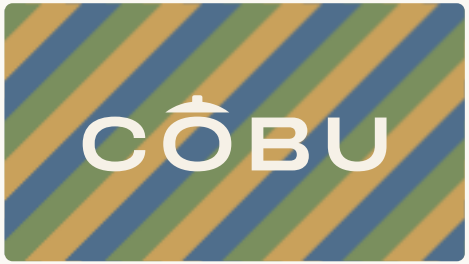

× Don't use colours outside the palette

× Don't add shadows or effects

× Don't remove or move the lid

× Don't place it on busy backgrounds

06 · COLOUR

Navy, warm white and a spoon of mustard

Navy and warm white carry the brand. Mustard is the accent: use it sparingly so it keeps its punch.

*CMYK values are a starting point. Ask your printer for a proof, or match against a Pantone swatch book before a production run.

07 · TYPOGRAPHY

Archivo, wide and sturdy

Archivo Expanded, the face behind the logo, sets headlines and labels. Regular-width Archivo keeps longer text easy to read. Both are free on Google Fonts.

HEADLINE ARCHIVO EXPANDED SEMIBOLD	**Made for the way you cook**
SUBHEAD ARCHIVO EXPANDED SEMIBOLD	**Mix, pour and clean in one bottle**
BODY ARCHIVO REGULAR · 16/25	Fill the bottle, drop in the whisk ball and shake. The silicone valve gives you clean, even pours for pancakes, crêpes and muffins.

08 · IN USE

Out in the world

Four everyday uses. The rules stay the same: generous space, navy and warm white, a small touch of mustard.

Packaging
Warm white wordmark on a navy box; mustard only for the badge.

Social avatar
Warm white pot on navy, centred in the circle.

Product marking
Single-colour icon cast or embossed on lids and handles.

Seal sticker
Mustard sticker for mailers and gift wrap.

09 · THE NAME

How to write COBU

The name is always written in capitals, in text and in the logo.

WRITE

COBU

“The new COBU dispenser is on Amazon.”

AVOID

Cobu · cobu · C.O.B.U.

In running text these look like typos or a different brand.
